

Dear Colleague,

We are delighted to share with you some of our latest news and recent activities.

Enjoy the read!
The Medasense Team

NOL™ technology is now commercially available across Europe, Israel and... Canada!

Following the recent approval of our technology by Health Canada, we are delighted to welcome our new distributors on board.

Please check out the list of our distribution partners below:

In the UK, France, Benelux, Spain, Portugal, Norway, Sweden, Denmark and Finland – our products are distributed by [Medtronic](#)
Switzerland – our products are distributed by [Anandic Medical Systems](#)

Austria – our products are distributed by [Habel Medizintechnik](#)

Italy – our products are distributed by [Moss spa](#)

Romania – our products are distributed by [Sofmedica](#)

Canada – our products are distributed by [Carestream Medical](#)

In **Germany, Israel** and across **Eastern Europe** our products are distributed directly by [Medasense](#).

If you are interested in a demo or want to learn more about how the NOL™ technology can help you titrate analgesic medications to patients' specific needs, contact us at info@medasense.com.

Watch world experts talk about the NOL™ technology and its benefits

Prof. Daniel Sessler, Chair of the Department of Outcomes Research, Cleveland Clinic, Ohio, sharing clinical data and insights on the importance of nociception monitoring during the NOL™ technology Meetup, Euroanaesthesia 2017.

Prof. Philippe Richebé, Department of Anesthesiology, Maisonneuve-Rosemont, University of Montreal, Canada, sharing his daily experience from using the NOL™ technology during the NOL™ technology Meetup, Euroanaesthesia 2017.

Scientific publications and presentations

NOL™ technology featured in the British Journal of Anaesthesia

NOL™ technology was chosen to be highlighted in the British Journal of Anaesthesia (BJA) review article "[Digital innovations and emerging technologies for enhanced recovery programmes](#)".

Does that hurt?

Assessing a person's pain in a subjective way causes many complications for healthcare professionals. [Read the article featured in "Innovations in Pharmaceutical Technology" publication](#), to learn how an objective approach may help tackle these issues.

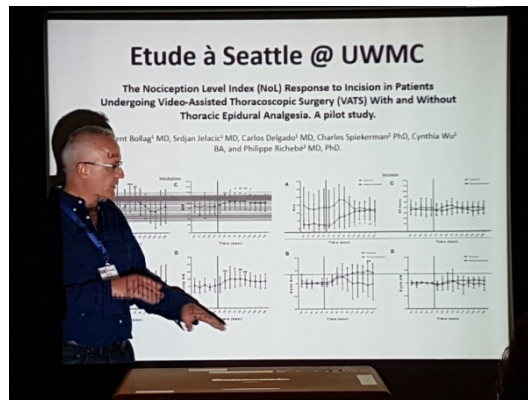

Top anesthesiologists are frequently sharing their experience on how the NOL™ technology helps them improve their daily practice:

1. **“Missing a Piece? NOL™ (Nociception Level) Technology: Intraoperative Pain Monitoring for Optimizing Analgesia”**, Ruth Edry, Daniel I. Sessler. *ICISA 2017, Tel Aviv, Israel, Nov. 2017*
2. **“Tailoring analgesia to patients' needs. The Nociception Level Index (NOL™)”** Albert Dahan. *3rd Symposium on Anesthesia, Hospital Da Luz, Lisbon, Portugal, Sept. 2017*
3. **“Comment j'individualise l'analgésie périopératoire”**, Philippe G. Richebé . *SFAR Congress, Paris, France, Sept. 2017*

Reviewing NOL™ case studies at ICISA 2017

Presenting the NOL™ technology at SFAR 2017

Don't forget to [follow our upcoming events](#) to find the next opportunity to meet with us and learn more about the NOL™ technology.

Medasense wins CEWIT 2017 Startup Contest

Medasense wins the 2017 Center of Excellence in Wireless and Information Technology (CEWIT) Startup Contest at State University of New York, Stonybrook!

Medasense making waves in China

Medasense is soon to be featured in a TV documentary in China, starring our CEO, Galit Zuckerman-Stark!

Thank you for your continued support

It has been an exciting period at Medasense and we are delighted to welcome a whole host of new partners and customers into the Medasense family.

We thank you all for your continued support in helping us make this happen.

Stay tuned and don't forget to follow us on [LinkedIn](#) and [Twitter](#)!

Until next time,
The Medasense team
