

Dear Colleague,

2019 may be winding down, but Medasense couldn't wait for 2020 to launch new initiatives and projects. We are extremely excited to reveal our brand new website and we have added new assets to our NOL lecture video library! Read on for more.

New Website!

We are thrilled to share with you our new Medasense web site, highlighting access to our Medasense Academy platform and to customer support, clinical evidence and numerous videos. [Come on over for a visit!](#)

Nociception Monitoring from the Surgeon's Perspective

Monitoring the patient's pain response during surgery is highly valuable for surgeons, providing feedback on surgical techniques. [Hear from surgeon Dr. med. Thomas Kyriss](#), head of Thoracic Dept. at Klinikum Böblingen, Germany. (6 min talk, 5 min Q&A, English subtitles.)

Chance to See NOL in the OR

Have you had a chance to see NOL monitoring in action and how it safeguards the patient's condition during surgery?

[Watch our 7 min video.](#)

New Case Reports and Pocket Guide

We are growing our knowledge base with new case reports from NOL users, presenting insights on NOL utility and benefits. We recently published two new cases from orthopedic surgery and robotic-assisted surgery. [Click here to view.](#) Have an interesting case to share? [Contact us.](#)

We have also recently released a new Pocket Guide providing detailed information for clinicians about how to implement NOL within clinical practice. [Click here to request your copy.](#)

EuroSIVA - See you in Brussels

The world of intravenous anaesthesia is evolving with developments in pump technology, new drugs and... monitoring. A unique [EuroSIVA \(European Society of Intravenous Anaesthesia\) scientific symposium](#) is taking place on February 28-29, 2020 in Brussels, and the program is super exciting. Looking forward to seeing you there!

NOL Around the World

Over the past couple of months our teams have been busy across Europe - showcasing NOL monitoring with symposia, workshops and lectures at successful conferences in the UK, Greece, Turkey, Sweden, Spain and France. In the "Live theatre workshop" (Germany), doctors were able to go straight from the conference into surgeries, to see the NOL in action.

In case you missed our last newsletter, [here's a chance to catch up](#).

Following us on [LinkedIn](#) is another great way to stay up to date on Medasense's upcoming events and progress.

Until next time!

The Medasense team
